DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 2, 2004 has been entered.

Claim Objections

Claims 14-16 are objected to because of the following informalities: In line 2 of claim 14, the word "of" is unnecessary. Claims 15 and 16 contain incorrect status identifiers. Although indicated as being original, the claims are not the same as the originally filed claims 15 and 16. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1764

Claims 15 and 17 are indefinite because the expression "said waveguide" in claim 15 lacks proper antecedent basis in 14.

Claim 16 is indefinite because it depends on canceled claim 8. Therefore, the scope of claim 16 cannot be ascertained.

Allowable Subject Matter

Claims 13, 14, 18-20 and 22 are allowed.

Claims 15-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose or suggest an apparatus as claimed that contains a microwave heating section in combination with the other apparatus components.
